Invisibility

Cost: 	Target: self	Range: -	Area radius: -
Duration: 2 rounds	Concentration: 		

You appear invisible as long as you are standing still. When you move, cast spells, attack or otherwise perform a action with rapid movement, there are ripples that hint others that there is somewhere there where you are and also the nature of the movement. Attacks against enemies that rely on sight have advantage, and attacks by enemies against you who rely on sight have disadvantage. This allows you to sneak in broad daylight. This can also be used as a creative spell during campaign turns.

+ 	Use limit: 1	When you move at half speed, then no ripple is creating so you have perfect invisibility. This allows you to sneak in broad daylight with advantage
+ 	Use limit: 1	Casting spells no longer creates ripples.
+ 	Use limit: 1	Attacking no longer creates ripples. This gives you double advantage for attacks
+ 	Use limit: 1	You can select another ally as the target of this spell. This spell gains the range of touch. To maintain the illusion the target must remain within line of sight from you.
